For Immediate Release

New Highway Route Designation Signing to be Installed (Segments of County Highway "37" to become "38" and "137")

Buffalo, Minnesota - The Wright County Highway Department sign technicians will be replacing the route markers in the next few weeks along segments of Highway 37, east of Highway 19 in Albertville, which will become Highway 38 and County Road 137, respectively. Please refer to the attached map for the location of the route changes.

That portion of County Highway 37, from I-94 to the west, through the County, will remain as County Highway 37.

The route changes are consistent with the NE Wright County Transportation Study and coincide with the recent construction of 70th Street by the City of Otsego that creates a continuous and straight east-west corridor between State Highway 101 in Otsego and County Highway 19 in Albertville.

The Wright County highway map will be revised to reflect these changes, along with other updates, in the future.

Please contact the Wright County Highway Department at 763-682-7383 if you have any questions.
