

GROWING BUSINESSES

“ At Room & Board we value the relationships we have with our vendors, customers and staff members. When choosing the City of Otsego for our 485,000-square-foot distribution center, we knew we would attract and maintain a high caliber workforce. In addition, city officials were very supportive of our decision from the initial planning reviews through completion of our building.”

—Bruce Champeau, President/COO, Room & Board
