

COMPOST SITE

By [albertvillemn](#)

Posted [October 2, 2019](#)

The Albertville compost site is available 7 days a week, 24 hours a day, to Albertville & Otsego residents. The area is exclusively used for organic materials that degrade quickly. This includes grass clippings, leaves, mulch, flowers, weeds, sod and garden waste. Bags must be removed when dumping these items. Small trees less than 3" in diameter, branches, brush, bushes and other natural wood products are accepted and need to be placed in a separate wood and brush pile at the site.

****Contractors who perform tree and brush services for hire are not permitted to use the site. No dumping of stumps, oversized tree trunks, lumber, rocks, clay, spoils from excavation, concrete bituminous or any other non-organic material. Dumping of garbage, petroleum products, chemicals, electronic equipment, appliances and other inorganic items is prohibited.**

Directions: Located between 65th St NE and 63rd St NE on MacIver Ave NE
